

Kennebec Savings Bank

Switch Kit

Switching to Kennebec Savings Bank has never been easier. Follow these simple **4-step** instructions, and you'll be banking where you and your community come first in no time at all!

- Step 1.** Open a Kennebec Savings Bank checking account.
- Step 2.** Change your direct deposits.
- Step 3.** Change your automatic payments.
- Step 4.** Close your old account(s).

There is no need to do the work of switching on your own. Visit any one of our branches and ask to speak to one of our Customer Service Representatives. We will not only guide you through the process of opening a new account – we would be happy to assist you with the rest of the switch as well, including calling direct depositors with you, mailing forms, and more.

What you will need to have or need to know

- Driver's license or other government-issued ID
- Proof of your residential address (if not on ID)
- Your funding deposit
- Your Social Security number

What may be nice to have on hand

- A recent checking account statement
- A list of written outstanding checks
- A list of authorized account withdrawals
- Your employer's direct deposit change form

Step 1. Open a Kennebec Savings Bank checking account (and set up your new Kennebec Savings Bank services).

While we open your checking account, be sure to get your accompanying Kennebec Savings Bank debit card, or inquire about a credit card. Sign up for Online Banking and get a walkthrough of Mobile Banking, Bill Pay, and eStatements. Check to see if any safe deposit boxes are available. See what we are currently offering for CD rates – or our mortgage rates, if homeownership or refinancing is in your future!

Step 2. Change your direct deposits.

If you don't have an official direct deposit change form handy, you can try our notice below!* Complete and submit this notice to anyone who makes direct deposits to your account. This may include, but is not limited to:

- *your employer*
- *Social Security or other gov't agency*
- *Maine Child Support*
- *your investment manager*

Step 3. Change your automatic payments.

Use our template below to submit automatic payment change notices.* Complete and submit this to any organization that collects automatic payments or authorized withdrawals from your account. This may include, but is not limited to:

Housing: *mortgage payments or rent, utilities (electric, gas, water), association fees*

Loans: *credit cards, auto loans, student loans*

Services: *internet, phone, cable/satellite TV*

Subscriptions: *Netflix, Amazon Prime, gym, club, or other membership dues*

Miscellaneous: *insurance, brokerage accounts, or charitable contributions*

Step 4. Close your old accounts.

Once any outstanding checks and other items have cleared, and direct deposits and automatic payments are set up to go through your new Kennebec Savings Bank account, write a check from your old account for the remaining balance and contact your old financial institution to close your account. Or, submit a notice of account closure to them as provided below.*

**Note: You may be required by recipients of these notices to submit separate forms. In other instances, we may be aware of processes that can help simplify the switch even more than we have outlined here. We are happy to help as we can. Don't be afraid to ask!*
